

Golf & Putting Greens Page Specification

Complete structural blueprint featuring the Eagle mascot, luxury villa positioning, and professional short-game performance.

Page Goal: Target luxury villa owners and golf enthusiasts by highlighting high-precision putting green engineering, true Stimp-rated ball roll, custom contours, and seamless lead conversion through the master questionnaire.

1. Main Header & Navigation Bar

Brand / Logo: Apex Turf primary logo positioned on the left.

Navigation Links: Landscaping | Pádel | Football | **Golf (Active)** | Gallery | About Us

Action Element: Right-aligned bold call-to-action button linking directly to the master questionnaire:
[*Get Samples & Quote*]

2. Hero Section (Above the Fold)

Visual Asset: High-impact background featuring the majestic **Eagle standing beside a flawless backyard putting green** [cite: 3].

Main Headline: *Apex Golf: Custom Putting Greens for Luxury Villas*

Subheadline: *Bring the course to your backyard. Precision-engineered putting greens built for true roll, flawless breaks, and championship performance at home.*

Primary CTA: [*Request Green Design & Samples*]

3. Tailored for Villa Owners & Golf Enthusiasts

Headline: *Your Personal Practice Facility at Home*

“Stop driving to the course just to practice your short game. We design and install custom backyard putting greens tailored to your villa's layout—engineered for professional Stimp-rated ball roll, realistic break contours, and zero maintenance year-round.”

4. The Apex Golf Advantage (Precision & Quality)

True Ball Roll & Speed

High-density texturized fibers that mimic professional greens, allowing you to practice chips, putts, and reads with exact accuracy.

Custom Contours & Breaks

Designed with subtle undulations, slopes, and custom cup placements to match your skill level and challenge your short game.

All-Weather Durability

UV-stabilized materials and superior sub-base drainage mean your green dries out minutes after a downpour, ready for immediate play.

Professional Installation Standards

Laser-leveled sub-base preparation, proper fringe integration, and flush cup fittings for a pristine finish.

5. Golf Project Gallery

Layout: Clean, high-end photography of backyard putting greens, fringe roughs, custom flagsticks, and integrated villa landscaping.
